OBJECTIVE

AIML undergraduate with a strong foundation in programming, machine learning, and software development. Passionate about solving problems, building reliable technology solutions, and continuously learning new skills. Seeking an Engineering role to contribute, grow, and build impactful products in a collaborative environment.

EDUCATION

Bachelor of Technology in Artificial Intelligence and Machine Learning Expected 2027
NMAM Institute of Technology CGPA: **9.16**

*Relevant Coursework:** Database Management Systems, Object-Oriented Programming, Data Structures and Algorithms, Operating Systems, Computer Networks, Cloud Computing, Machine Learning.

SKILLS AND ACHIEVEMENTS

Technical Skills	Python, SQL
Tools & Frameworks	Git, GitHub, React.js, React Native, Expo, MongoDB, PostgreSQL, FastAPI, Figma.
Soft Skills	Problem Solving, Collaboration, Communication, Adaptability, Ownership.
Achievements	1st Place – DevHost Hackathon, Sahyadri College of Engineering and Management 2nd Place – Flinders University Hackathon

EXPERIENCE

UI/UX Developer Intern July 2025 – October 2025
Mindstack Technologies Pvt. Ltd

- Collaborated cross-functionally with developers and stakeholders to translate complex business requirements into high-fidelity, functional product designs and user workflows using Figma.
- Mapped user journeys and designed intuitive, consistent interfaces to optimize usability and eliminate friction points across client-facing platform ecosystems.

PROJECTS

CloudGuard Jun 2026 - Jul 2026

- Engineered an end-to-end cloud cost anomaly detection platform using FastAPI, Isolation Forest and Prophet, processing billing logs, serving real-time predictions, detecting anomalies, and forecasting 30-day cloud spending.
- Tools: Python, FastAPI, Scikit-learn, Prophet, Pandas, PostgreSQL

Portfolio Manager Jun 2026 - Jul 2026

- Built a scalable portfolio management platform with modular backend and secure authentication; integrated real-time market data, improved API performance by 30% using caching, and streamlined user workflows for efficient portfolio tracking and analytics.
- Tools: React.js, FastAPI, PostgreSQL, Redis, JWT Authentication, REST APIs, Finnhub API.

SheScript Jan 2026 - Feb 2026

- Synthesized complex healthcare data into simplified consumer workflows leveraging the Gemini API; mapped user journeys and integrated translation features to eliminate operational friction and ensure clear, accessible information delivery.
- Tools: MERN Stack, Google Gemini API, Tailwind CSS, JWT Authentication, REST APIs, Translation APIs.

LEADERSHIP AND ACTIVITIES

- Team Lead – Entrepreneurship Readiness Program: Conducted mock interviews and soft-skills training to improve students' interview performance and placement preparedness.
- Documentation Member – Samvaada: Managed team meetings and contributed to content creation.
